Full-stack software developer with experience working with HTML, CSS, JavaScript, React/Redux, Materia-Ul, NodeJS/Express, MongoDB/Mongoose, SQL, C#, Asp.Net, and MVC architecture. My ultimate career goal is to become a world-class engineer capable of delivering highly optimized software solutions to complex business problems by consistently applying and developing my technical and soft skills, while relentlessly refining and improving my approach to problem-solving and decision making. I am always up for a challenge as I am a firm believer that growth can only happen outside my comfort zone.

EDUCATION

Mechanical Engineering
Federal University of Petroleum Resources
2014 - 2019   *Effurun, Nigeria*

WORK EXPERIENCE

.NET Fellow
The Bulb Africa
02/2022 - Present   *Lagos, Nigeria*

Description
- Performed requirement gathering, analysis, and feasible studies of software projects.
- Developed highly scalable web APIs incorporating best practices and software design patterns.
- Developed responsive MVC applications using Asp.Net core MVC.
- Designed and executed unit tests for different application layers of software applications.
- Collaborated with my development team in delivering projects in an agile manner using tools like Git/Github and Jira.
- Integrated 3rd parties packages such as Twilio and Cloudinary into our existing projects.
- I ensured all project timelines were continuously met without compromising quality.

Frontend Web Developer
BuzyDev Technologies Limited
05/2021 - 12/2021   *Lagos, Nigeria*

Achievements
- Developed interactive web interfaces for the company's clients.
- I provided customer support services to my company's clients and continually ensured issues were resolved promptly and satisfactorily.
- Maintained and managed web applications for my company's client.
- Continuously ensured all project deadlines were met without compromising the quality of product delivered.
